

Water-repellent agent for ceramic CP-A2

- used for biscuit (unglazed surface)
- to depart glaze (glaze-repellent property)
and display the original color of the body
- water-based system, no odor
- not-flammable, safety
- can be easily washed by water

1kg/bottle

Made in Japan / water-repellent agent for ceramic glaze

Low irritation, safer than solvent-based product, easy to clean and provide the water-proofing effect.

Usage

1. Shake well 30 minutes before use.
2. Please draw directly on the biscuit with a brush, do not dilute with water or solvent, and do not add glaze.
3. Please dry for more than 5 minutes before applying glaze.

Precautions

- Store in a cool place, be careful not to freeze it, so as not to fade the effect of the product.
- When working, be sure to use gloves, masks, goggles and other protective equipment.
- Keep out of reach of children.
